

The Hardscape School 2023 Hands-On Class

March 13th through March 17th

Foundation Skills for A COMPLETE HARDSCAPE:

The classes at **THE HARDSCAPE SCHOOL** are invaluable to anyone & everyone in the Hardscape Industry. From novice to expert, students learn new efficiency and safety techniques as well as reinforce industry best practices.

This year we are including the Retaining Wall Class with the Paver Class.

This is a 5-day Course! During this class we will cover the installation of **Concrete Pavers, Large Format Pavers, Clay Pavers and Porcelain Pavers**. It is designed to allow paver sales professionals, contractors, and manufacturers the opportunity to learn "hands-on" the installation procedures. This will help them install and sell their pavers by having a thorough understanding of the system and installation process.

THE PAVER CLASS WILL COVER: (3 Days)

Elevations, Layout, Excavation, Sub-grade Compaction, Geotextile Fabrics, Base Construction & Compaction, Grading, Edge Restraints, Sand Screeding, Laying Pavers, Marking & Cutting, Compacting & Setting Pavers.

THE RETAINING WALL CLASS WILL COVER: (2 Days)

Layout, Elevations, Excavation, Subgrade Compaction, Leveling Pad Construction, Installing Base Course, Drainage, Backfill & Compaction, Geogrid Installation and Capping.

WHY CHOOSE HARDSCAPE SCHOOL?

Best Practices

All of HARDSCAPE SCHOOL's training curriculum is taught to industry "Best Practices" and was designed and developed with the input of a group of contractors "Founders" and industry experts, who represent all regions of the country.
